Can I keep my email address after I graduate? (Alumni Mail)

What the College of Engineering Alumni Mail Service is...

The UCSB College of Engineering (CoE) provides lifelong email forwarding to its graduating students.

This service is available only upon REQUEST.

Important Note

CoE alumni are eligible if and only if they have received degrees and whose accounts have not been expired longer than 30 days.

The Alumni Mail Forwarding only applies to College of Engineering email address only.

The @ucsb.edu and @umail.ucsb.edu email addresses are not part of the Alumni Mail Forwarding offering at this time.

Please read this information carefully and completely.

If you are an alumnus of the College of Engineering at UCSB, we will provide lifelong email forwarding for email messages addressed to you at your current username@engineering.ucsb.edu address.

Forwarding for departmental aliases (i.e.: @cs.ucsb.edu) is only set up if the user requests it. Forwarding for departmental aliases is in lieu of your username@engineering.ucsb.edu address.

This means you will have only one address available for your use:

username@engineering.ucsb.edu or username@departmental_alias.ucsb.edu

The above addresses must forward to a single destination.

You must provide us with the email address where you would like to have your email forwarded. It should be a permanent email address.

Note

This service is for email forwarding only.

You will not be able to send under the alumni address.

All other services (Shell Access, Github, Personal Website, etc...) will be expired and no longer accessible once forwarding is in place.

Please do not ask for alumni-forwarding until you are finished using your COE account.

You will no longer be able to access your COE account when forwarding starts!

Please remove all files and emails you want to keep before requesting alumni-forwarding.

All requests and inquires concerning alumni forwarding should be sent to following:

alumni-forwarding@engineering.ucsb.edu

The request MUST be submitted via your @engineering.ucsb.edu/@ucsb.edu or @umail.ucsb.edu email address to verify you are the proper requestor.

The email must include the following:

- Your Engineering Account User Name
- Which Discipline you have graduated from
- What email address you would like the mail forwarded to
- Acknowledgment that you have read this FAQ and you have already removed all emails/files from your CoE account that you wish to keep.

After you have sent your email request, forwarding should begin within 24 hours. If you would like to modify your destination address, just send mail to the same address, from the forwarding email address, letting us know.

Mail that has already been delivered locally will not be forwarded; only new incoming messages will be forwarded.

This forwarding supersedes any .forward file you may have in place.

When your account expires, the lifelong forwarding will continue to function. If your degree is not granted or you are not a alumni, the forwarding will be canceled.
If you have any questions, please send mail to help@engineering.ucsb.edu and we will be happy to assist you.

For all other alumni...

The most we can offer to you is the Gauchomail which is offered through UC Santa Barbara Alumni at this link

https://www.ucsbalum.com/gauchomail

For further information on Gauchomail, you will need to contact ucsbalum@ucsbalum.com.
